About Concept

CONCEPT, the brainchild of **Mr. Amit Arora** was founded in **2008** due to his relentless zeal and penchant for excellence. Mr. Arora, endowed with great planning and leadership is also an accomplished educator with exceptional teaching skills and an impeccable focus. Despite leading from the front he still believes in personally motivating and guiding all students who choose Concept as a guiding force on their journey.

We at **CONCEPT** aim to build strong conceptual clarity among students and provide them with innovative and holistic ways to approach problems. Our consistent success with IIT-JEE and NEET aspirants is enough to prove our dedication and discipline in mentoring students who face increased competition year after year.

CONCEPT is committed to serve as the connecting link between student aspirations and reality. We are a one-step platform for students of **classes 6 to 12** to not only prepare them to realise their future goals but also ignite within them a spirit of curiosity and an unquenchable thirst for knowledge.

Apart from preparing students for **IIT-JEE and NEET** examinations, we also offer holistic Foundation courses to students of grade 6 to 12 by subject experts and some of the best teachers in this industry.

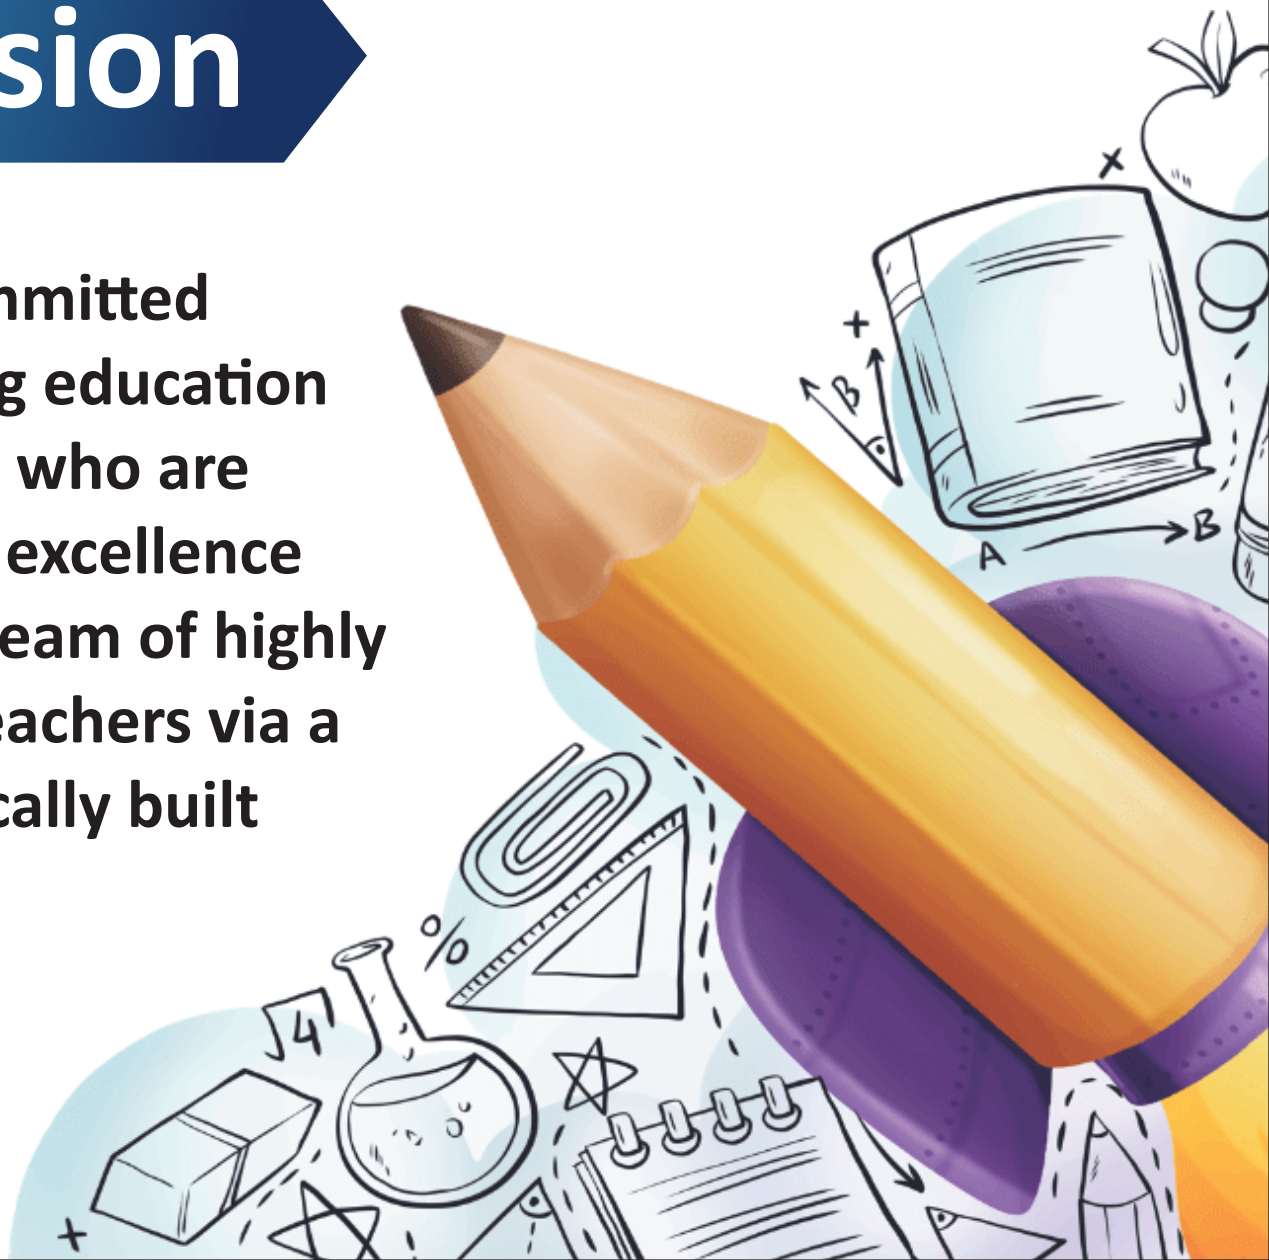

The journey of **CONCEPT** although challenging has been an extremely rewarding one. We are driven by the desire to create and shape the future of this country while firmly believing that **“Result is the true reflection of your hard work”**.

Vision

We envisage to change the way of tutoring and oppose the conventional obsolete modus operandi.

Mission

We are committed to providing education to all those who are striving for excellence through a team of highly qualified teachers via a technologically built ecosystem.

Test Series &
Assignments

Our Courses (Foundation Program) VI - XII

The Foundation course extensively covers all the Science (PCB) and Mathematics syllabus. In addition to this, the understanding of students is regularly evaluated through Periodic Tests and Quizzes.

This course thoroughly prepares students for acing the SCHOOL/BOARD EXAM.

Coverage of Topics from CBSE level:

Concept has the system of imparting knowledge through Micro-Schedule based teaching. This helps us channelize the efforts of our students in the desired direction. Thus, we follow the NCERT sequence to cover all the topics of the respective phases from all levels.

Regular Tests are conducted based on School and Entrance Exam pattern. Thoroughly researched material is provided to the students for Physics, Chemistry, Biology and Mathematics.

Our Courses (Advanced Program) IX & X

This course includes comprehensive coverage of the CBSE Syllabus of SCIENCE and MATHEMATICS in a synchronized manner. Many additional and relevant topics of Higher level are also taught in this course to inculcate analytical skills, problem-solving and a better understanding of core-concepts required for JEE/NEET.

Our Courses (ENGINEERING)

This programme prepares the students for JEE-Advanced and JEE-Main to give the desired output in their performance. It includes comprehensive training, practice sessions in the form of tutorial classes and final review in the form of revision classes as well.

TEACHING METHODOLOGY

Stage-I

Coverage of topics based on CBSE Level. Concept has an intensive system of imparting knowledge through Micro-schedule-based teaching. This helps us channelize the efforts of our students in the right direction.

Stage-II

Coverage of topics based on JEE Level. Concept has periodically proven its academic edge over its competitors. Its track record bears testimony to its expertise in preparing students for JEE and other competitive examinations. Stage II imparts JEE-Level competence for the topics taught during Stage I for CBSE.

CPT(Common Practice Test)

CPTs are conducted every week based on the JEE pattern. CBSE Board based pattern tests are also conducted periodically. Thus with the above methodology we ensure that students not only ace their Board examinations but also score great ranks in competitive examinations.

Our Courses (MEDICAL)

CONCEPT has a highly focused and motivated faculty who endeavour to tap the potential of your child and guide them towards a conducive direction. Our Medical Course is designed for students currently enrolled in classes XI & XII and are looking for a fierce coaching regime to crack medical examinations such as NEET and other valued examinations.

TEACHING METHODOLOGY

Our result-focused medical courses help prepare students for NEET. a series of tests and examinations are conducted during the course to evaluate and improve the level of performance of our students. We conduct personalized doubt clearing sessions for our students and help them in achieving their target.

Stage-I

Coverage of topics based on CBSE Level. Concept has an intensive system of imparting knowledge through Micro-schedule-based teaching. This helps us channelize the efforts of our students in the right direction.

Stage-II

Coverage of topics based on NEET Level. Concept has periodically proven its academic edge over its competitors. Its track record bears testimony to its expertise in preparing students for NEET and other competitive examinations. Stage II imparts NEET-Level competence for the topics taught during Stage I for CBSE.

CPT (Common Practice Test)

CPTs are conducted every week based on the pattern of NEET. CBSE Board pattern-based tests are also conducted at regular intervals. Thus with the above methodology we ensure that students not only ace their Board examinations but also score great ranks in competitive examinations.

Two-year Integrated Course for NEET

Our two-year integrated course prepares class XI students to outperform in various medical entrance exams including NEET and other state exams as well as board examinations.

One-year Integrated Course for NEET

Our one-year integrated course prepares class XII students to outperform in various medical entrance exams including NEET and other state exams as well as board examinations.

Course Commencement:

April/May
